LFR MENTORSHIP PROGRAM

LFR mentorship program is a **flagship** program exclusively designed for 3rd to 5th year students of the 5-year law program and 2nd and 3rd year students of the 3-year program. It has enabled over **500+ law students from 160+ law schools across 15 batches** through curated capacity-building sessions designed to provide practical knowledge and career clarity.

Each week, LFR hosts expert-led sessions on key areas such as CV and cover letter drafting, corporate law, litigation and ADR, emerging legal careers, AI tools for lawyers, and navigating law school challenges. These sessions equip law students with real-world insights and the skills needed to thrive in the legal profession.

Launched during the pandemic to bridge the gap in professional exposure, **LFR continues to make quality guidance accessible to all.** The program enables students to explore diverse legal pathways, build relevant competencies, and feel more confident about their academic and career choices.

LFR also collaborates with universities and organisations to conduct specialised session-based batches, tailoring content to the unique needs of different student groups. These partnerships expand access to impactful learning opportunities for aspiring legal professionals. This is a **6-week program.**
